<i>List of figures</i>	page	ix
<i>List of tables</i>		x
<i>Preface</i>		xiii
<i>List of conference participants</i>		xiv
1. Introduction: is there a public debt problem in Italy?		1
LUIGI SPAVENTA		
Discussion		25
RUDIGER DORNBUSCH		
2. The end of large public debts		34
ALBERTO ALESINA		
Discussion		
BARRY EICHENGREEN		80
MARCELLO DE CECCO		85
3. Monetary and fiscal policy coordination with a high public debt		90
GUIDO TABELLINI		
Discussion		
STANLEY FISCHER		127
PATRICK MINFORD		132
4. The management of public debt and financial markets		135
MARCO PAGANO		
Discussion		
JOHN FLEMMING		167
LUIGI SPAVENTA		173
		vii

5. Capital controls and public finance: the experience in Italy	177
ALBERTO GIOVANNINI	
Discussion	
MAURICE OBSTFELD	212
CHARLES WYPLOSZ	217
6. Public debt and households' demand for monetary assets in Italy: 1970-86	222
ANDREA BOLLINO	
NICOLA ROSSI	
Discussion	
JEFFREY FRANKEL	244
GIAMPAOLO GALLI	250
Index	255

Figures

1.1	Ratio of total and non-monetary debt to GDP	page 2
1.2	The Italian debt/income ratio	26
5.1	Lira exchange rates in New York, 1914–26	190
5.2	The black market premium	200
5.3	The inflation tax in Italy, the US and Germany	204
5.4	An investment tax raises the first-period current account surplus	213
5.5	A subsidy to present consumption lowers the first-period current account surplus	214
6.1	Italy: deviations from covered interest parity, 3 month interbank rate versus Eurodollar rate	247

Tables

1.1	Gross public debt: ratios to GDP	<i>page</i>	3
1.2	Economic indicators		4
1.3	Revenues, expenditures and deficits		6
1.4	Determinants of changes in the debt ratio: 1976-80; 1981-86		8
1.5	Composition of total public sector debt		11
1.6	Distribution of marketable debt by category of holders		12
1.7	Households: financial savings and wealth		14
1.8	Debt determinants		27
2.1	The German public budget during the First World War		41
2.2	The German budget 1920-23		42
2.3	Indices of nominal debt, real debt, inflation, money supply and seignorage in Germany (1919-23)		44
2.4	The German budget after the stabilization		46
2.5	The German real economy during inflation and stabilization		48
2.6	Interwar growth rates		48
2.7	Selected measures of French public debt		49
2.8	Ratio of short-term over total debt: France, Italy and Great Britain		49
2.9	The French public budget		50
2.10	France: wholesale price index		52
2.11	France: index of exchange rate, francs per dollar		54
2.12	French nominal and real interest rates, inflation and growth		57
2.13	The Italian public budget		59
2.14	The Italian money supply and CPI		60
2.15	The Italian government budget		61
2.16	Italian wages, employment and output		61
2.17	The British public budget		64
2.18	The British public debt		65

2.19	Real interest rate, inflation, growth and unemployment in Great Britain	66
2.20	Great Britain: taxation as a percentage of income	67
2.21	The United States government debt	68
2.22	The United States public budget	69
2.23	United States real interest rate, rate of growth and debt/GNP ratio	70
2.24	Interest groups and policy preferences	81
2.25	Italian government loans	86
2.26	Sectoral gross debt/GNP ratios, 1975 and 1985	87
3.1	Monetary policy in Italy	93
3.2	Share of public debt held by the Bank of Italy	93
3.3	Real interest rate differentials between Italy and West Germany	96
3.4	PSBR without interest payments, with and without cyclical adjustments	109
3.5	Unconstrained estimates of equation (14)	112
3.6	Estimates of equation (14) when the constraint $\delta_2 = 0$ is imposed	112
3.7	Estimates of equation (15)	114
3.8	Summary statistics	115
3.9	Unconstrained estimates of equation (16)	116
3.10	F tests on the hypothesis that $\delta(L) = 0$	117
4.1	Percentage composition and average maturity of public sector debt	136
5.1	GNP and government debt: 1914–25	189
5.2	The lira exchange rates: 1914–24	191
5.3	GNP and government debt: 1927–38	193
5.4	The current account balance: 1927–38	193
5.5	Estimates of capital flows: 1929–36	195
5.6	Exchange restrictions during 1972–86	198
5.7	Government deficits and their financing: 1966–86	199
6.1	Composition of Italian households' net wealth	223
6.2	Parameter estimates under the homogeneity and symmetry constraints (1977.3–86.4)	232
6.3	Likelihood ratio tests	233
6.4	Weak separability tests	234
6.5	Parameter stability tests	235
6.6	Effects of a one point change in selected rates of return	236
