Preface *xv*

About the authors *xvii*

1 The institutional repository in the digital library **1**

Digital libraries in a digital world 2

Definition of a 'digital library' 3

Repository locus: institution vs discipline 6

Repositories and digital libraries 8

Repositories of research papers 10

Repositories of other objects 11

What role do institutional repositories play? 16

Metadata 21

Repositories and research impact 26

Conclusion 29

Note 30

2 Establishing a repository **31**

The case for a repository 32

The cost of scholarly journals 33

Costing a repository 35

Making the case for a repository 40

Securing the innovation 46

Conclusion 49

3	**Technologies and technicalities**	**51**
	The nature of institutional repository software	52
	Defining local requirements	62
	OAI-PMH for inter-connectivity: the institutional repository in situ	67
	Evaluation	72
	Digital preservation	76
	Conclusion	83
	Note	84
4	**Workflow and administration**	**85**
	What workflow and administration mean for the institutional repository	86
	Examples of workflow and administration	92
	Administration in the context of the end user	108
	Conclusion	109
	Note	110
5	**Advocacy**	**111**
	Diffusion of innovation applied to institutional repositories	112
	Practical advocacy strategies for content recruitment	127
	Conclusion	137
	Note	138
6	**Intellectual property**	**139**
	Stakeholders and their interests	140
	Risk mitigation	148
	Conclusion	157
7	**Case study: The Edinburgh Research Archive**	**159**
	Introduction	159
	Development	161
	Deployment	171
	Administration	175

Management 182
Conclusion 188
Note 189

Appendix **191**

A Archimède 193
B CDSware: CERN document server 197
C DSpace 201
D GNU EPrints archive software 205
E Fedora 209
