

Woodhead Publishing in Food Science and Technology

*The stability  
and shelf-life  
of food*

**Edited by David Kilcast and Persis Subramaniam**

WOODHEAD PUBLISHING LIMITED

# Contents

Preface .....	ix
List of contributors .....	xi
<b>1 Introduction .....</b>	<b>1</b>
<i>D. Kilcast and P. Subramaniam, Leatherhead Food Research Association</i>	
1.1 What is shelf-life? .....	1
1.2 Factors influencing shelf-life .....	3
1.3 Types of deterioration .....	6
1.4 Measuring shelf-life .....	6
1.5 Predicting shelf-life .....	11
1.6 The design of shelf-life experiments .....	13
1.7 Extending shelf-life .....	15
1.8 The structure of this book .....	18
1.9 References .....	19
<b>Part 1 Analysing shelf-life .....</b>	<b>23</b>
<b>2 The glass transition and microbial stability .....</b>	<b>25</b>
<i>M. T. Kalichevsky-Dong, Consultant</i>	
2.1 Introduction .....	25
2.2 Methods used to predict microbial stability .....	27
2.3 The glass transition approach .....	30
2.4 Current research on the glass transition .....	37
2.5 Conclusions .....	46
2.6 Acknowledgements .....	47
2.7 References .....	48

<b>3 Modelling shelf-life</b> .....	55
<i>C. de W. Blackburn, Unilever Research, Sharnbrook</i>	
3.1 Introduction .....	55
3.2 Development of predictive models .....	57
3.3 Software systems .....	62
3.4 Applying predictive models to particular foods .....	68
3.5 Future trends .....	73
3.6 Sources of further information and advice .....	74
3.7 References .....	75
<b>4 Sensory evaluation methods for shelf-life assessment</b> .....	79
<i>D. Kilcast, Leatherhead Food Research Association</i>	
4.1 Introduction .....	79
4.2 Principles of sensory evaluation .....	81
4.3 Basic requirements for sensory analysis .....	84
4.4 Discrimination tests .....	88
4.5 Quantitative descriptive tests .....	90
4.6 Consumer acceptability testing .....	96
4.7 Operation of sensory shelf-life tests .....	96
4.8 The interpretation of sensory shelf-life data .....	97
4.9 Instrumental methods in sensory shelf-life testing .....	99
4.10 Future trends .....	102
4.11 References .....	103
<b>5 Accelerated shelf-life tests</b> .....	107
<i>S. Mizrahi, Technion-Israel Institute of Technology</i>	
5.1 Introduction .....	107
5.2 Basic principles .....	107
5.3 Initial rate approach .....	108
5.4 Kinetic model approach .....	110
5.5 Problems in accelerated shelf-life tests .....	123
5.6 Future trends .....	125
5.7 References .....	125
<b>6 Advanced instrumental methods: the use of <math>^1\text{H}</math> relaxation NMR to monitor starch retrogradation</b> .....	129
<i>I. A. Farhat, University of Nottingham</i>	
6.1 Introduction: starch retrogradation .....	129
6.2 Instrumental methods available for the investigation of retrogradation .....	130
6.3 Advantages of the NMR approach .....	131
6.4 Principles of NMR .....	131
6.5 Case study: extruded starch .....	136
6.6 Future trends .....	140

6.7	Sources of further information and advice .....	141
6.8	References .....	142
<b>Part 2</b>	<b>Case studies .....</b>	<b>143</b>
<b>7</b>	<b>Predicting packaging characteristics to improve shelf-life .....</b>	<b>145</b>
	<i>A. Emblem, The Institute of Packaging</i>	
7.1	Introduction .....	145
7.2	The role of packaging in extending shelf-life .....	148
7.3	Integrating packaging and other methods of extending shelf-life .....	152
7.4	The range of packaging options available .....	157
7.5	Predicting packaging characteristics for particular foodstuffs .....	164
7.6	Future trends .....	168
7.7	Acknowledgement .....	168
7.8	Sources of further information and advice .....	168
7.9	References .....	169
<b>8</b>	<b><i>Sous vide</i> products .....</b>	<b>171</b>
	<i>G. A. Armstrong, University of Ulster</i>	
8.1	Introduction .....	171
8.2	Factors affecting the shelf-life of <i>sous vide</i> products .....	174
8.3	How shelf-life is measured .....	179
8.4	Extending shelf-life .....	188
8.5	Future trends .....	189
8.6	Sources of further information and advice .....	189
8.7	References .....	190
<b>9</b>	<b>Milk and milk products .....</b>	<b>197</b>
	<i>D. D. Muir and J. M. Banks, Hannah Research Institute, Ayr</i>	
9.1	Introduction .....	197
9.2	Chemical composition and principal reactions of milk .....	198
9.3	Bacteria in milk and related enzyme activity .....	202
9.4	Raw milk enzymes .....	205
9.5	Control of the quality of short shelf-life products .....	206
9.6	Yoghurt and fermented milk .....	209
9.7	Factors influencing the stability of long shelf-life products ..	210
9.8	Control of the stability of long-life milk products .....	212
9.9	Summary .....	218
9.10	Acknowledgement .....	218
9.11	Bibliography .....	218
<b>10</b>	<b>Confectionery products.....</b>	<b>221</b>
	<i>P. J. Subramaniam, Leatherhead Food Research Association</i>	
10.1	Introduction .....	221
10.2	Factors affecting shelf-life .....	221

10.3	Chocolate and chocolate products .....	224
10.4	Sugar glass .....	232
10.5	Toffee .....	233
10.6	Gums and jellies .....	237
10.7	Aerated confectionery .....	241
10.8	Sources of further information and advice .....	244
10.9	References .....	246
<b>11</b>	<b>Fruits and vegetables .....</b>	<b>249</b>
	<i>J. Aked, Cranfield University at Silsoe</i>	
11.1	Introduction .....	249
11.2	What determines the shelf-life of fruit and vegetables? .....	250
11.3	How the shelf-life of fruits and vegetables is measured .....	259
11.4	Extending the shelf-life of fruits and vegetables .....	262
11.5	Future trends .....	269
11.6	Conclusions .....	271
11.7	Sources of further information and advice .....	272
11.8	References .....	273
<b>12</b>	<b>Fats and oils .....</b>	<b>279</b>
	<i>J. Kristott, Pura Foods Ltd, Belvedere</i>	
12.1	Introduction .....	279
12.2	What determines the shelf-life of fats and oils? .....	280
12.3	How shelf-life of fats and oils is measured .....	291
12.4	Measures for ensuring storage stability and extending shelf-life of fats and oils .....	299
12.5	Future trends .....	304
12.6	Sources of further information and advice .....	306
12.7	Acknowledgements .....	307
12.8	References .....	307
<b>13</b>	<b>Sauces and dressings .....</b>	<b>311</b>
	<i>B. Pourkomailian, McDonald's Europe, Frankfurt</i>	
13.1	Introduction .....	311
13.2	What determines the shelf-life of sauces and dressings? .....	313
13.3	How shelf-life of sauces and dressings is measured .....	320
13.4	Implications of measurement for formulation and preservation .....	323
13.5	Extending shelf-life .....	325
13.6	Future trends .....	328
13.7	Sources of further information and advice .....	329
13.8	References .....	329
	Index .....	333
