Solar Thermal

World Address Book

Solar Thermal World Address Book

Imprint	4
Editorial	5
Table of contents	6

1 SOLAR SYSTEMS

1.1 Pool heating	9
1.2 Solar air systems	14
1.3 Solar cooling	16
1.4 Solar packages	19
1.5 Thermosiphonic systems	44

2 COMPONENTS

2.1 Collectors	57
2.1.1 Concentrating collectors	57
2.1.2 Flat plate collectors	60
2.1.3 Vacuum tube collectors	86
2.2 Controllers	97
2.3 Equipment	105
2.4 Freshwater stations	113
2.5 Mounting systems	115
2.6 Pre-insulated pipe systems	121
2.7 Pumping systems	127
2.8 Solar fluids/heat transfer mediums	129
2.9 Solar stations	131
2.10 Storage tanks	135

3 SUPPLIER INDUSTRY

3.1 Absorbers	149
3.1.1 Absorber manufacturers	149
3.1.2 Coaters	157
3.1.3 Serpentine frets	161
3.2 Adhesive bonding	162
3.3 Insulation	163

3.4	Machine distributors	165
3.4.1	Array tube brazing	165
3.4.2	Automation/Turnkey solutions	166
3.4.3	Bending machines	171
3.4.4	Punching	172
3.4.5	Robots	174
3.4.6	Vacuum technology	176
3.4.7	Welding machines	177
3.4.7.1	Laser welding	177
3.4.7.2	Ultrasonic welding	179
3.5	Raw material, tubes and plates	181
3.5.1	Aluminium	181
3.5.2	Copper	184
3.5.3	Steel	187
3.6	Selective colours	188
3.7	Solar glass	189
3.7.1	Coated glass	189
3.7.2	Float glass	189
3.8	Vacuum tubes	190

4 MISCELLANEOUS

4.1	Architects	193
4.2	Consultants	194
4.3	Exhibitions & event organizers	196
4.4	Media	198
4.5	Software	200
4.6	Wholesalers	201

EDITORIAL CONTENT

Welding technology: Absorber manufacturing made easy	202
Coating: The blue shift	206
Flat plate collectors: To each his own	210
Controller trends: Greater convenience at a low price	218
Thermosiphonic systems: Optimism predominates	226
