PREFACE	vii
CONTRIBUTORS	ix
<b>1. Polymeric Materials from Renewable Resources</b>	<b>1</b>
<i>Long Yu and Ling Chen</i>	
<b>PART I NATURAL POLYMER BLENDS AND COMPOSITES</b>	<b>17</b>
<b>2. Starch–Cellulose Blends</b>	<b>19</b>
<i>Ioannis S. Arvanityannis and A. Kassaveti</i>	
<b>3. Starch–Sodium Caseinate Blends</b>	<b>55</b>
<i>Ioannis S. Arvanityannis and Persefoni Tserkezou</i>	
<b>4. Novel Plastics and Foams from Starch and Polyurethanes</b>	<b>87</b>
<i>Yongshang Lu and Lan Tighzert</i>	
<b>5. Chitosan—Properties and Application</b>	<b>107</b>
<i>Nilda de Fátima Ferreira Soares</i>	
<b>6. Blends and Composites Based on Cellulose and Natural Polymers</b>	<b>129</b>
<i>Yixiang Wang and Lina Zhang</i>	
<b>PART II ALIPHATIC POLYESTER BLENDS</b>	<b>163</b>
<b>7. Stereocomplexation Between Enantiomeric Poly(lactide)s</b>	<b>165</b>
<i>Hideto Tsuji and Yoshito Ikada</i>	
<b>8. Polyhydroxyalkanoate Blends and Composites</b>	<b>191</b>
<i>Guo-Qiang Chen and Rong-Cong Luo</i>	

<b>PART III HYDROPHOBIC AND HYDROPHILIC POLYMERIC BLENDS</b>	<b>209</b>
<b>9. Starch–Poly(hydroxyalkanoate) Composites and Blends</b> <i>Randal Shogren</i>	<b>211</b>
<b>10. Biodegradable Blends Based on Microbial Poly(3-hydroxybutyrate) and Natural Chitosan</b> <i>Cheng Chen and Lisong Dong</i>	<b>227</b>
<b>PART IV NATURAL FIBER—REINFORCED COMPOSITES</b>	<b>239</b>
<b>11. Starch–Cellulose Fiber Composites</b> <i>Analia Vázquez and Vera Alejandra Alvarez</i>	<b>241</b>
<b>12. Poly(Lactic Acid)/Cellulosic Fiber Composites</b> <i>Mitsuhiro Shibata</i>	<b>287</b>
<b>13. Biocomposites of Natural Fibers and Poly(3-Hydroxybutyrate) and Copolymers: Improved Mechanical Properties Through Compatibilization at the Interface</b> <i>Susan Wong and Robert Shanks</i>	<b>303</b>
<b>14. Starch–Fiber Composites</b> <i>Milford A. Hanna and Yixiang Xu</i>	<b>349</b>
<b>PART V BIODEGRADABLE COMPOSITES</b>	<b>367</b>
<b>15. Starch-Based Nanocomposites Using Layered Minerals</b> <i>H. R. Fischer and J. J. De Vlieger</i>	<b>369</b>
<b>16. Polylactide-Based Nanocomposites</b> <i>Suprakas Sinha Ray and James Ramontja</i>	<b>389</b>
<b>17. Advances in Natural Rubber/Montmorillonite Nanocomposites</b> <i>Demin Jia, Lan Liu, Xiaoping Wang,         Baochun Guo, and Yuanfang Luo</i>	<b>415</b>
<b>PART VI MULTILAYER DESIGNED MATERIALS</b>	<b>435</b>
<b>18. Multilayer Coextrusion of Starch/Biopolyester</b> <i>L. Avérous</i>	<b>437</b>
<b>INDEX</b>	<b>465</b>
