Conservation Skills

Judgement, Method and Decision Making

Chris Caple

Contents

List of figures xiii
Acknowledgements xv

1 Perception, judgement and learning 1

1.1 Introduction 1
1.2 The nature of perception, understanding and learning 2
1.3 Limitations and biases in perception and judgement 5
1.4 Judgement in conservation 7
1.5 Teaching and learning 9
1.6 Improving judgement 10

2 Reasons for preserving the past 12

2.1 The importance of the past 12
2.2 The importance of preserving the past 15
2.3 Reasons for presenting the past 18
2.4 The truth in the objects of the past 20
2.5 Destroying the past 21
2.6 Visitors and tourists 22
2A Case study: The De Walden Collection 23

3 The nature of conservation 29

3.1 Objects as historic documents and aesthetic entities 29
3.2 Conservation: A definition 31
3.3 Revelation, investigation, preservation (RIP) 33
3.4 Context 36
3.5 The conservation process 37
3.6 The sequence of interventive conservation 39
3A Case study: The Statue of Liberty 39

4 History of conservation 46

4.1 History of museums and collections 46
4.2 History of conservation 50
4A Case study: The Portland Vase 55

5 Conservation ethics 59

5.1 Ethical codes 59
5.2 True nature 62
5.3 Reversibility 63
5.4 Minimum intervention 64
5.5 Pragmatism and prioritization: The money ethic 65
5.6 Stewardship 66
5.7 Implementing ethics 66
5A Case study: Colonial Williamsburg Garden 67

6 Objects: Their recording and investigation 70

6.1 Purpose and nature of recording 70
6.2 A conservation record 71
6.3 The object 74
6.4 Scientific analysis 80
6A Case study: Benwell Box 88

7 Cleaning 90

7.1 Cleaning 90
7.2 Acting on aesthetic impulses 90
7.3 Soiling 91
7.4 Original surface 93
7.5 Cleaning: Where to stop 94
7.6 Cleaning paintings 96
7.7 Damage during cleaning 97
7.8 Cleaning: The decision 99
7A Case study: The Sistine Chapel 100

8 Stabilization 106

8.1 The nature of stabilization 106
8.2 The nature of stability 108
8.3 Stability of materials 110
8.4 Recording versus stabilization 112
8.5 Health and safety 114
8A Case study: Lindow Man 115

9 Restoration 119
9.1 *Restoration as a philosophy* 119
9.2 *Definition of terms* 122
9.3 *The development of restoration* 124
9.4 *The purpose, acceptability and extent of restoration* 127
9.5 *Variations in approach* 129
9.6 *Where to stop* 132
9A *Case study: Sutton Hoo Helmet* 132
9B *Case study: Hans Holbein's painting* The Ambassadors 136

10 In working condition 140
10.1 *Preserving the sounds, smells and movements of the past* 140
10.2 *Museums of working objects* 142
10.3 *Museum objects with differing function and status* 144
10.4 *Objects in working order* 146
10A *Case study: The Forth Bridge* 149

11 Preventive conservation 152
11.1 *Preventive conservation* 152
11.2 *Storage* 152
11.3 *Black-box standard* 156
11.4 *Preservation through legislation: Buried objects* 160
11.5 *Preservation through legislation: Historic objects* 161
11.6 *Preservation* in situ 163
11A *Case study: The Laetoli footprints* 166

12 Decisions 170
12.1 *The nature of decision* 170
12.2 *Decision-tree example* 170
12.3 *Estimating probability* 175
12.4 *Risk assessment for museums* 176
12A *Case study: The Bush Barrow Gold* 177

13 Responsibilities 182
13.1 *Colleagues* 182
13.2 *Objects, conservators and owners* 185
13.3 *World heritage* 188
13.4 *Objects of belief* 190
13.5 *Artist/creator of the object* 193
13.6 *Stolen or looted objects* 194
13.7 *Competence* 195

13.8 Advocacy 196
13A Case study: Cartoon – Leonardo da Vinci – The Virgin and Child with St Anne and St John the Baptist *197*

14 Conclusion **200**

14.1 The evolution of conservation 200
14.2 Good judgement 204
