

Michael Szycher, Ph.D.

SZYCHER'S HANDBOOK OF

POLYURETHANES

Contents

1	Introduction	
1.1	Historical	1.1
1.2	Polyurethanes	1.2
1.3	Overview of Polyurethane Markets.....	1.4
1.4	Elastomers	1.6
2	Basic Concepts in Polyurethane Chemistry and Technology	
2.1	Overview.....	2.1
2.2	Kinetics of Polyurethane Polymerization	2.4
3	Structure-Property Relations in Polyurethanes	
3.1	Monomers, Reactions, and Structures.....	3.4
3.2	Surface Analysis.....	3.38
4	Isocyanate Chemistry	
4.1	World Capacity	4.1
4.2	Historical	4.3
4.3	The Isocyanate Functionality	4.6
4.4	Isocyanate Adducts and Their Reactions.....	4.13
4.5	Industrially Important Isocyanates	4.17
4.6	Commercial Manufacturing Processes	4.24
4.7	Specialty Isocyanates	4.38
5	Polyols	
5.1	Introduction	5.1
5.2	Classification	5.1
5.3	Commercially Available Polyols.....	5.6
6	Chain Extenders	
6.1	Introduction	6.1
6.2	Chain Extender Patents	6.2
7	Flexible and Semiflexible Foams	
7.1	Introduction	7.1
7.2	Types of Polyurethane Foam.....	7.4
7.3	Foam Preparation	7.9

14.19	Polyurethane Dispersions.....	14.18
14.20	Illustrative Patents.....	14.19
15	Health and Safety	
15.1	Health and Safety Factors.....	15.1
15.2	Toluene Diisocyanate (Meta-toluene Diisocyanate).....	15.2
15.3	Polyamines.....	15.16
16	Radiation-Curable Adhesives and Coatings	
16.1	Introduction.....	16.1
16.2	Advantages of Radiation-Cured Polyurethanes.....	16.1
16.3	Radiation Curing Processes.....	16.2
16.4	UV Versus Hot Melt.....	16.3
16.5	UV Curing Technology.....	16.4
16.6	Industry Trends.....	16.6
16.7	Historical Perspectives.....	16.6
16.8	Photochemistry Principles.....	16.7
16.9	Mechanisms.....	16.8
16.10	Formulating Considerations.....	16.13
16.11	Coating Applications.....	16.16
16.12	Commercially Available Photoinitiators.....	16.18
16.13	Illustrative Patents.....	16.18
17	Processing Methods	
17.1	Extrusion.....	17.1
17.2	Injection Molding.....	17.8
17.3	Insert Molding.....	17.13
17.4	Liquid Resin Casting.....	17.15
17.5	Reaction Injection Molding.....	17.16
17.6	Continuous Extruder Polymerization.....	17.18
17.7	Illustrative Patents.....	17.21
18	Compounding Ingredients	
18.1	Internal and External Lubricants for Polyurethanes.....	18.1
18.2	External Surfaces.....	18.4
18.3	Multifunctional Lubricants.....	18.6
18.4	UV Stabilizers.....	18.7
18.5	Radical Scavengers, Peroxide Decomposers.....	18.13
18.6	Antimicrobials.....	18.14
18.7	Colorants.....	18.16
18.8	Illustrative Patents.....	18.21
19	Copolymers and Polyblends	
19.1	Polyblends of Polyolefins and Polyurethanes.....	19.1

19.2	Polyblends of Polycarbonate and Polyurethanes	19.2
19.3	Interpenetrating Polymeric Networks	19.3
19.4	Polyblends	19.4
19.5	Polyurethane/Polyvinyl Chloride Interpenetrating Polymeric Networks	19.6
20	Polyurethane Coatings	
20.1	Introduction	20.1
20.2	Coating Technology.....	20.1
20.3	Specific Applications.....	20.5
20.4	Illustrative Patents.....	20.7
21	Castables, Sealants, and Caulking Compounds	
21.1	Introduction	21.1
21.2	Polyurethanes for Roll Covering.....	21.5
21.3	Illustrative Patents About Sealants.....	21.8
22	Medical Applications	
22.1	Background	22.1
22.2	High-Performance Polyurethanes.....	22.1
22.3	Peritoneal Dialysis Applications.....	22.1
22.4	Cardiac Pacemaker Leads	22.2
22.5	Infusion Pumps.....	22.4
22.6	Cardiovascular Catheters.....	22.6
22.7	Illustrative Patents.....	22.10
Appendix A	Polyurethane Suppliers and Manufacturers.....	A.1
Appendix B	Urethane Processing Systems.....	B.1
Appendix C	Glossary.....	C.1
Appendix D	Conversions and Formulas	D.1
Index		I.1

19.2	Polyblends of Polycarbonate and Polyurethanes	19.2
19.3	Interpenetrating Polymeric Networks	19.3
19.4	Polyblends	19.4
19.5	Polyurethane/Polyvinyl Chloride Interpenetrating Polymeric Networks	19.6
20	Polyurethane Coatings	
20.1	Introduction	20.1
20.2	Coating Technology.....	20.1
20.3	Specific Applications.....	20.5
20.4	Illustrative Patents.....	20.7
21	Castables, Sealants, and Caulking Compounds	
21.1	Introduction	21.1
21.2	Polyurethanes for Roll Covering.....	21.5
21.3	Illustrative Patents About Sealants.....	21.8
22	Medical Applications	
22.1	Background	22.1
22.2	High-Performance Polyurethanes.....	22.1
22.3	Peritoneal Dialysis Applications.....	22.1
22.4	Cardiac Pacemaker Leads	22.2
22.5	Infusion Pumps.....	22.4
22.6	Cardiovascular Catheters.....	22.6
22.7	Illustrative Patents.....	22.10
Appendix A	Polyurethane Suppliers and Manufacturers.....	A.1
Appendix B	Urethane Processing Systems.....	B.1
Appendix C	Glossary.....	C.1
Appendix D	Conversions and Formulas	D.1
Index	I.1
