Bearing Steel Technologies

Developments on Rolling Bearing Steels and Testing

8th Volume

JAI Guest Editor

John M. Beswick

Contents

Overview	vii
Bearing Steel Steelmaking and Semi-Finished Product Manufacturing Technologies	
Quantitative Relationship between Degree of Center Segregation and Large Carbide Size in Continuously Cast Bloom of High Carbon Chromium Bearing Steel	
K. Kim, K. Oh, J. Lee, and D. Lee	3
Material and Heat Treatment Design Considerations, Including Fracture Mechanics and Structural Strength, for Rolling Bearings	
Microstructure and Fatigue Strength of the Bearing Steel 52100 after Shortened Bainitic Treatment	
J. Dong, H. Vetter, F. Hoffmann, and H. W. Zoch	17
Case Depth and Static Capacity of Surface Induction-Hardened Rings	
J. Lai, P. Ovize, H. Kuijpers, A. Bacchetta, and S. Ioannides	32
Microstructure Behaviour in Rolling Contact	
Stress Field Evolution in a Ball Bearing Raceway Fatigue Spall	
N. A. Branch, N. K. Arakere, V. Svendsen, and N. H. Forster	57
Sub-Surface Initiated Rolling Contact Fatigue—Influence of Non-Metallic Inclusions, Processing History, and Operating Conditions	
T. B. Lund	81
Initiation Behavior of Crack Originated from Non-Metallic Inclusion in Rolling Contact Fatigue	
N. Tsunekage, K. Hashimoto, T. Fujimatsu, and K. Hiraoka	97
Modeling the Influence of Microstructure in Rolling Contact Fatigue	
E. S. Alley, K. Sawamiphakdi, P. I. Anderson, and R. W. Neu	111
Fatigue Life Prediction Methodologies	
A New Methodology for Predicting Fatigue Properties of Bearing Steels: From X-Ray Micro-Tomography and Ultrasonic Measurements to the Bearing Lives Distribution	
A. Stienon, A. Fazekas, J.-Y. Buffiere, P. Daguier, F. Merchi, and A. Vincent	141
Gigacycle Fatigue Properties of Bearing Steels	
C. Bathias	160
Rolling Contact Fatigue Life Test Design and Result Interpretation Methods Maintaining Compatibility of Efficiency and Reliability	
T. Fujita	179
Corrosion Resistant Steel and Hydrogen Effects in Bearing Steels	
The Role of Hydrogen on Rolling Contact Fatigue Response of Rolling Element Bearings	
R. H. Vegter and J. T. Slycke	201

Micro Cleanliness Quality Assurance in Bearing Steels

Quality Function Deployment Application on the Development of 100Cr6 Bearing Tubes A. S. M. Fonseca and O. A. F. Neto,	221
Comparison of Inclusion Assessment Rating Standards in Terms of Results and Reliability by Numerical Simulation E. Hénault,	232
