TABLE OF CONTENTS

PREFACE V

PART ONE – BASIC CONCEPTS: VALUE, COST, AND CAPITAL INVESTMENT FOUNDATIONS I

- 1 Value Creation and Financial Accounting 1
 - Appendix 1-A Basic Accounting Mechanics 23
- 2 Cost Measurement and the Cost Accounting System 32
- 3 Relevant Costs and Revenues and Estimating 51

PART TWO – BASIC CAPITAL INVESTMENT ANALYSIS: APPLICATIONS 99

- 4 Computations Involving Interest 99
- 5 Equivalent Worth Methods for Comparing Alternatives 138
- 6 Rate of Return Methods for Comparing Alternatives 165
 - Appendix 6-A Use of the ERR Method to Overcome Multiple-Solutions Difficulty with the IRR Method 193
 - Appendix 6-B Other Rate of Return and Investment Recovery Measures of Merit for Financial and Management Purposes 195
 - Appendix 6-C Benefit–Cost Ratio Measures of Merit 199
- 7 Consideration of Depreciation and Income Taxes 204
- 8 Dealing with Price Changes in Capital Investment Analysis 254
- 9 Replacement Analysis 274
- 10 New Product and Expansion Analyses 316
 - Appendix 10-A Sample Forms for Summary Presentations 341
- 11 Capital Planning and Budgeting 345
 - Appendix 11-A Adjusted Present Worth or Value 377
 - Appendix 11-B Bundled Financing 379

PART THREE – CAPITAL INVESTMENT ANALYSES IN AN UNCERTAIN WORLD: FORMAL ASSESSMENTS 381

- 12 Introduction to Risk and Uncertainty 381

13	Sensitivity Analysis	402
	Appendix 13-A Tabular and Graphical Illustrations of Sensitivity Analysis for the Comparison of Alternatives	422
14	Analytical and Simulation Approaches to Risk Analysis	428
15	Decision Criteria and Methods for Risk and Uncertainty	446
16	Decision Tree Analysis	469
	Appendix 16-A Bayes's Theorem and Tabular Format for Calculation of Posterior Probabilities	493
PART FOUR – SPECIALIZED TOPICS		495
17	Capital Investment Decisions as Real Options	495
18	Activity-Based Costing and Activity-Based Management	520
19	Multiple-Attribute Decision Making and the Analytic Hierarchy Process	545
Appendix A	Tables of Discrete Compounding Interest Factors (for Various Common Values of i from $1/2\%$ to 25%)	586
Appendix B	Tables of Continuous Compounding Interest Factors (for $r = 10\%$ and 20%)	602
Appendix C	Table of Random Numbers	605
Appendix D	Table of Random Normal Deviates	606
Appendix E	The Standardized Normal Distribution Function, $F(S)$	607
Index		608
Inside Front Cover	Glossary of Commonly Used Symbols and Abbreviations for Capital Investment Analysis	
Inside Back Cover	Summarization of Discrete Compound Interest Factors and Symbols
