## Contents

- Fault Detection and Classification Logic for Transmission Lines Using  
Multi-resolution Wavelet Analysis  
**Simi P. Valsan and K. S. Swarup** . . . . . 321
- 3D-FEM Analysis *Versus* Test Results for Three Transversal Flux Linear  
Motor Topologies  
**Do Hyun Kang and Herbert Weh** . . . . . 345
- Implementation of a Mixed Recursive Least-squares and Kalman Filter Approach  
in Parameters, Flux, and Speed Estimation for Vector-controlled Induction  
Motor Drives  
**G. Maragliano and M. Marchesoni** . . . . . 359
- Volt-Var Optimization Using Differential Evolution  
**M. Varadarajan and K. S. Swarup** . . . . . 387
- Predictive Control of Matrix Converter-based Micro-turbine  
**F. Jurado, M. Ortega, and A. Cano** . . . . . 409
- A Non-linear Control Technique for Unified Power Flow Controller Based on  
Feed-back Linearization  
**G. Saravanailango and C. Nagamani** . . . . . 432
