

MEASUREMENT TECHNIQUES

A translation of *Izmeritel'naya Tekhnika* and *Metrologiya*

Volume 51, Number 2

February, 2008

CONTENTS

STATE STANDARDS

- The State Standard for Alternating Current in the Frequency Range 20 to $1 \cdot 10^6$ Hz
– O. P. Galakhova and G. P. Telitchenko 113

FUNDAMENTAL PROBLEMS IN METROLOGY

- A Gravimetric Two-Component Inertial System – A. S. Devyatisil'nyi and K. A. Chislov 120
The Inverse Moment Treatment from Center of Mass Depth and Four Dimensionless Shape
Factors – Yu. A. Tarakanov and O. V. Karagioz 124

GENERAL PROBLEMS OF METROLOGY AND MEASUREMENT TECHNIQUE

- Distribution Propagation in Estimating Measurement Uncertainty – É. A. Golubev 130

OPTOPHYSICAL MEASUREMENTS

- x-Ray Microtomography Using a Laboratory Source: Measurement Technique and Comparison
of Reconstruction Algorithms – M. V. Chukalina, A. V. Buzmakov, D. P. Nikolaev,
A. I. Chulichkov, M. G. Karimov, G. A. Rasulov, R. A. Senin, and V. E. Asadchikov 136
Metrological Aspects of Image Analysis – V. V. Fomin, A. P. Mikhailovich, A. S. Popov,
N. F. Nizametdinov, and Yu. V. Shalaumova 146
Application of a Vector-Analytic Model for Metrological Analysis of an Infrared Fourier
Spectrometer – V. D. Mazin and A. N. Chepushtanov 152
Laser Methods and Facilities for Monitoring the Geometric Dimensions of Components
– V. N. Demkin and V. A. Stepanov 158
Determination of Tolerances for Deviation from Nominal Parameters and Characteristics of
Optical Instruments with Multi-Element Radiation Receivers – V. P. Soldatov 163
Optoelectronic Radius Meter – E. B. Ignat'ev and A. I. Varivoda 169
Device for Measuring Print Quality Characteristics for Optically Recognizable Characters
– A. V. Bondarenko, A. V. Gudkov, A. V. Shendrik, and M. L. Tsibul'kin 172

MECHANICAL MEASUREMENTS

- Measurement of the Range Rate of Airborne Objects in a Frequency Tuning Regime
– D. A. Maiorov, V. Yu. Savost'yanov, and D. G. Mitrofanov 177

THERMAL MEASUREMENTS

- The Principles of Data Processing Based on the Numerical Solution of the Nonlinear
Heat-Conduction Problem. Pt. 2. The Coefficient Functional Optimization Problem
in a Variational Formulation – I. N. Ishchuk 184

CONTENTS

(continued)

RADIO MEASUREMENTS

- Measurement of the Instantaneous Frequency of Broadband Signals in a Short Observation
Interval – A. V. Nikitin and S. V. Yushanov 188

ACOUSTIC MEASUREMENTS

- Estimation of the Nonstationary Variance of an Acoustic Signal by the Method of Least
Squares – V. V. Petrov 195

MEDICAL AND BIOLOGICAL MEASUREMENTS

- The Formation of Features for Recognizing Complex Images Based on Stochastic Geometry
– N. G. Fedotov, A. S. Kol'chugin, O. A. Smol'kin, A. V. Moiseev, and S. V. Romanov 199

PHYSICOCHEMICAL MEASUREMENTS

- The Measurement of Humidity at High Pressures – A. V. Kryukov and K. V. Kurilenok 208
Comparative Analysis of Models of the Dielectric Properties of Soil in Self-Excited Oscillator
Measurements of Moisture Content – V. G. Lisichkin and S. N. Shvedov 213

INTERNATIONAL COLLABORATION

- An Algorithm for Detecting Drift in the Value of the Comparison Standard When Analyzing
the Data of Key Comparisons of National Standards – A. G. Chunovkina
and A. V. Stepanov 219
