

Materials Science and Technology

October 2008 Volume 24 Number 10

- 1167 Effects of strain on grain boundary characteristics and their correlation to mechanical properties in low carbon steel processed by warm multipass calibre rolling**
S. V. S. Narayana Murty, S. Torizuka, K. Nagai, T. Kitai and Y. Kogo
- 1174 Development of hypoeutectoid graphitic steel for wires**
K. Banerjee and T. Venugopalan
- 1179 Effect of solid content on formation of sol-gel derived mullite fibres**
X. T. Chen and L. X. Gu
- 1183 Electron backscattering diffraction study of coalesced bainite in high strength steel weld metals**
E. Keehan, L. Karlsson, H. K. D. H. Bhadeshia and M. Thuvander
- 1189 Grain boundary segregation of phosphorus and molybdenum in 2.25Cr-1Mo steel**
R. Ding and J. Knott
- 1195 Deformation behaviour of GH4169 nickel based superalloy in isothermal compression**
M. Q. Li, W. B. Ju, Y. Y. Lin, X. J. Wang and Y. Niu
- 1199 Hydrothermal preparation of nanocarbonated hydroxyapatite crystallites**
X.-F. Xiao, R.-F. Liu and Y.-J. Gao
- 1204 Deformation induced martensite characteristics in Fe-29Ni-2Mn alloy**
E. Güler and H. Aktaş
- 1209 Castability of thin walled titanium alloy castings in vertical centrifugal field**
C. Y. Li, S. P. Wu, J. J. Guo, Y. Q. Su and H. Z. Fu
- 1214 Microstructural characterisation and kinetics modelling of vermicular cast irons**
K. Laneri, P. Bruna and D. Crespo
- 1222 Hot workability and microstructure evolution of highly β stabilised Ti-25V-15Cr-0.3Si alloy**
W. D. Zeng, Y. Shu, X. M. Zhang, Y. G. Zhou, Y. Q. Zhao, H. Wu, Y. Dai, J. Yang and L. Zhou
- 1230 Studies on macrosegregation and double diffusive convection during directional solidification of binary mixture**
N. Barman and P. Dutta
- 1238 Influence of grain size fluctuations on ductility of superplastic magnesium alloys processed by severe plastic deformation**
J. A. del Valle and O. A. Ruano
- 1245 Microstructure evolution of conventionally cast nickel base superalloy**
K. Zhao, Y. H. Ma, L. H. Lou and Z. Q. Hu
- 1250 Ternary alloy Ni-W-P nanoparticles electroless deposited within alumina nanopores**
J. H. Zhou, J. P. He, P. He, H. X. Zhang, M. Tang, Y. J. Ji, X. L. Liu and W. J. Dang
- 1254 Microstructure transformation of Sn base solders under isothermal aging and thermal shearing cycling conditions**
L. H. Qi, J. H. Huang, X. K. Zhao and H. Zhang
- 1259 Tensile ductility of AA5182: effect of impact loading**
M. Zadra, G. Straffelini and A. Molinari
- 1265 Effect of gauge length in superplastic tensile tests**
P. S. Bate, N. Ridley and K. Sotoudeh
- 1271 Effects of strain rate and temperature on dynamic mechanical behaviour and microstructural evolution in aluminium-scandium (Al-Sc) alloy**
W.-S. Lee and T.-H. Chen
- 1283 Texture and mechanical anisotropy in three extruded magnesium alloys**
S. H. Safi-Naqvi, W. B. Hutchinson and M. R. Barnett
