

Water Science and Technology

Volume 58, Number 2

Contents

- 267 How does shear affect aggregation in granular sludge sequencing batch reactors? Relations between shear, hydrophobicity, and extracellular polymeric substances
E. Dulekgurgen, N. Artan, D. Orhon and P. A. Wilderer
- 277 Effect of heterotrophic growth on nitrification/anammox in a single sequencing batch reactor
Kai M. Udert, Elija Kind, Mieke Teunissen, Sarina Jenni and Tove A. Larsen
- 285 Membrane bio-reactors for decentralized wastewater treatment and reuse
S. Meuler, S. Paris and T. Hackner
- 295 Remediation of chlorophenol- and phenol-contaminated groundwater by a sequencing batch biofilm reactor
G. Farabegoli, A. Chiavola and E. Rolle
- 303 Role of biomass adaptation in the removal of formic acid in sequencing batch reactors
D. Dionisi, M. Majone, A. Bellani, C. Cruz Viggì and M. Beccari
- 309 Acetate-fed aerobic granular sludge for the degradation of chlorinated phenols
A. Carucci, S. Milia, G. De Gioannis and M. Piredda
- 317 Intelligent monitoring networks – transformation of data into information for water management
S. Winkler, M. Zessner, E. Saracevic and N. Fleischmann
- 323 Production of polyhydroxyalkanoates by glycogen accumulating organisms treating a paper mill wastewater
Simon Bengtsson, Alan Werker and Thomas Welander
- 331 Automatic set-point titration for monitoring nitrification in SBRs
N. Fiocchi, E. Ficara, S. Bonelli, R. Canziani, F. Ciappelloni, S. Mariani, M. Pirani, P. Ratini, D. Mazouni and J. Harmand
- 337 Optimisation of sanitary landfill leachate treatment in a sequencing batch reactor
A. Spagni, S. Marsili-Libelli and M. C. Lavagnolo
- 345 NH_4^+ ad-/desorption in sequencing batch reactors: simulation, laboratory and full-scale studies
P. Schwitalla, A. Mennerich, U. Austermann-Haun, A. Müller, C. Doringner, H. Daims, N. C. Holm and S. G. E. Rönner-Holm
- 351 Effect of salinity on the activity, settling and microbial community of activated sludge in sequencing batch reactors treating synthetic saline wastewater
G. Wu, Y. Guan and X. Zhan

- 359 Molecular and biokinetic characterization of methylotrophic denitrification using nitrate and nitrite as terminal electron acceptors
Vladimir Baytshok, Sungpyo Kim, Ran Yu, Hongkeun Park and Kartik Chandran
- 367 Technological transfer to demonstrative scale of sequencing batch biofilter granular reactor (SBBGR) technology for municipal and industrial wastewater treatment
C. Di Iaconi, M. De Sanctis, S. Rossetti and R. Ramadori
- 373 Buoyant Filter Bio-Reactor (BFBR)—a novel anaerobic wastewater treatment unit
Soosan J. Panicker, M. C. Philipose and Ajit Haridas
- 379 Energy- and CO₂-reduction potentials by anaerobic treatment of wastewater and organic kitchen wastes in consideration of different climatic conditions
D. Weichgrebe, I. Urban and K. Friedrich
- 385 Removal of xenobiotics in a two phase sequencing batch reactor: kinetics and modelling
M. C. Tomei and M. C. Annesini
- 391 Development of the Sulphidogenesis Cum Ammonia Removal Process for treatment of tannery effluent
P. C. Sabumon
- 399 Chromium (VI) reduction in activated sludge bacteria exposed to high chromium loading
P. E. Molokwane, C. K. Meli and E. M. N. Chirwa
- 407 Polishing of pretreated dye wastewater using novel sequencing batch reactors
K. S. Singh, M. M. LeBlanc and D. Bhattacharyya
- 413 Wastewater garden—a system to treat wastewater with environmental benefits to community
Jaya Nair
- 419 Treatment of yellow water by membrane separations and advanced oxidation methods
Z. Lazarova and R. Spendingwimmer
- 427 Calcium phosphate precipitation in a SBR operated for EBPR: interactions with the biological process
R. Barat, T. Montoya, L. Borrás, J. Ferrer and A. Seco
- 435 A pilot scale study of a sequencing batch reactor treating municipal wastewater operated via the UP-PND process
M. Kornaros, C. Marazioti and G. Lyberatos
- 439 Operation for nitrification of sludge liquor in a full-scale SBR
D. J. I. Gustavsson, U. Nyberg and J. la Cour Jansen
- 445 Real-time control strategy for simultaneous nitrogen and phosphorus removal using aerobic granular sludge
N. Kishida, S. Tsuneda, Y. Sakakibara, J. H. Kim and R. Sudo
- 451 Ozone oxidation of oestrogenic active substances in wastewater and drinking water
S. Baig, G. Hansmann and B. Paolini
- 459 The efficiency of gravity distribution devices for on-site wastewater treatment systems
T. Patel, N. O’Luanaigh and L. W. Gill
- 467 SBR technology for high ammonium loading rates
A. Galí, J. Dosta, S. López-Palau and J. Mata-Álvarez

- 473 The effect of moisture content and alkalinity on the anaerobic biodegradation of VIP contents
A. A.-L. Couderc, C. A. Buckley, K. Foxon, C. F. Nwaneri, B. F. Bakare, T. Gounden and A. Battimelli
- 479 Treatment of saline wastewater in SBR aerobic granular reactors
M. Figueroa, A. Mosquera-Corral, J. L. Campos and R. Méndez
- 487 Small scale recirculating vertical flow constructed wetland (RVFCW) for the treatment and reuse of wastewater
A. Gross, M. Y. Sklarz, A. Yakirevich and M. I. M. Soares
