

Packaging Technology and Science

An International Journal

Vol. 22, No. 3, April–May 2009

CONTENTS

| | |
|---|-----|
| Antimicrobial Activity of Chitosan Attached to Ethylene Copolymer Films R. D. Joerger, S. Sabesan, D. Visioli, D. Urian and M. C. Joerger | 125 |
| Plasma Modification of Polyolefin Surfaces K. T. Lee, J. M. Goddard and J. H. Hotchkiss | 139 |
| A Systematic Study on the Stability of UV Ink Photoinitiators in Food Simulants Using GC Z.-W. Wang, X.-L. Huang and C.-Y. Hu | 151 |
| Chitosan Tailor-Made Films: The Effects of Additives on Barrier and Mechanical Properties C. M. P. Yoshida, E. N. O. Junior and T. T. Franco | 161 |
| On a Proposal for a Generic Package Development Process C. Bramklev | 171 |
