- 395 A Numerical Approach to Simulate Fiber Motion Trajectory in an Airflow Field in Compact Spinning with a Perforated Drum
Z. Y. Zou, L. D. Cheng, and Z. H. Hua
- 403 Analysis of the Relaxation Modulus of Spun Yarns
H. Liu, X.M. Tao, K.F. Choi, and B.G. Xu
- 411 Forming Regression-based Mathematical Models to Predict PET POY Yarn Properties in the Case of Changing Production Parameters
K. Yildirim, Y. Ulcay, and O. Kopmaz
- 422 Effects of Air Temperature, Relative Humidity, and Wind Speed on Water Vapor Transmission Rate of Fabrics
J. Huang and Y. Chen
- 429 The Effect of Fiber Properties on the Characteristics of Spliced Yarns Part I: Prediction of Spliced Yarns Tensile Properties
P. G. Ünal, N. Özdil, and C. Taşkın
- 439 A Method for the Continuous Measurement of Combing Noil and Its Application in Wool Topmaking
K. Atkinson, W. Stannard, and K. Bagshaw
- 448 Study on Novel Environment-friendly Navy and Black Reactive Dyes
Z. Wang and Z. Wu
- 454 Nano-cotton Fabrics with High Ultraviolet Protection
R. Paul, L. Bautista, M. De la Varga, J. M. Botet, E. Casals, V. Pantes, and F. Marsal
- 463 Measuring the Maturity of Developing Cotton Fibers using an Automated Polarized Light Microscopy Technique
R. L. Long, M. P. Bange, S. G. Gordon, and G. A. Constable
- 472 Predicting Seam Opening Behavior of Woven Seat Fabrics
K. Yildirim
