 SAGE Publications

## Contents

### Original articles

- The effect of physical parameters on sound absorption properties of natural fiber mixed nonwoven composites 2043  
*M Küçük and Y Korkmaz*
- A novel synthesis, characterization and application of an anionic Cr-complexed azo dye based on environmental considerations 2054  
*M Zarkogianni, E Coutouli-Argyropoulou, C Samara, A Anthemidis, N Nikolaidis and E Tsatsaroni*
- Electromechanical analysis of length-related resistance and contact resistance of conductive knitted fabrics 2062  
*L Li, S Liu, F Ding, T Hua, WM Au and K-S Wong*
- A study of an embeddable and locatable spinning system via quasi-static mechanical analysis 2071  
*H Wang, Z Xia and W Xu*
- Characterisation of surface properties of chemical and plasma treated regenerated cellulose fabric 2078  
*Z Peršin, A Vesel, KS Kleinschek and M Mozetič*
- Automatic machine embroidery image color analysis system, part III: Integration of machine embroidery image color analysis system 2090  
*C-FJ Kuo, C-Y Kao, B-L Jian and C-P Tung*
- Efficiency of four sampling methods used to detect two common nosocomial pathogens on textiles 2099  
*U Rabuza, S Šostar-Turk and S Fijan*
- Electrical and mechanical properties of phenoxy/multiwalled carbon nanotubes multifilament yarn processed by melt spinning 2106  
*J Bouchard, A Cayla, V Lutz, C Campagne and E Devaux*
- Compression creep behaviour of jute-polypropylene blended needle-punched nonwoven 2116  
*S Debnath and M Madhusootheran*
- A new method of yarn hairiness reduction by air suction during carding 2128  
*M Mirzaei, AA Gharehaghaji and M Zarrebini*
- Electrical properties and electromagnetic shielding effectiveness of polyester yarns with polypyrrole deposition 2137  
*Z Yıldız, I Usta and A Gungor*
