CONTENTS

Papers

- 231 **Technical efficiency and its determinants in the Indian garment industry**
R.N. Joshi and S.P. Singh
- 244 **Study on spliced yarns of different spinning technologies. Part I: tensile characteristics**
A. Das, S.M. Ishtiaque and S.K. Parmar
- 256 **Study on spliced yarns of different spinning technologies. Part II: structural characteristics**
A. Das, S.M. Ishtiaque and S.K. Parmar
- 269 **Characterization and evaluation of commercial fragrance microcapsules for textile application**
C.S.N.R. Teixeira, I.M.D. Martins, V.L.G. Mata, M.F.F. Barreiro and A.E. Rodrigues
- 283 **Interactive effect between warp and weft of a woven ramie fabric under biaxial loadings**
G. Wang, F. Chen, H. Cheng and X. Li
- 292 **Investigating the effect of weight reduction treatment on Poisson's ratio of microfiber polyester woven fabric**
N.E. Shahabi, S.A. Mooneghi, S. Saharkhiz and S.M.H. Varkiyani
- 298 **Preparation, characterization, and functional analysis of zinc oxide nanoparticle-coated cotton fabric for antibacterial efficacy**
A.A. Subash, K.V. Chandramouli, T. Ramachandran, R. Rajendran and M. Muthusamy
- 304 **Cleaner production technologies in desizing of cotton fabric**
N. Ul-Haq and H. Nasir
- 311 **Superhydrophobic cotton fabrics prepared by one-step water-based sol-gel coating**
L. Xu, W. Zhuang, B. Xu and Z. Cai
- 320 **Novelty of bamboo fabric**
R. Mishra, B.K. Behera and B.P. Pal
- 330 **Modelling of fibre orientation in fibrous materials**
B. Neckář and D. Das
- 341 **Study on drafting force and sliver irregularity on drawing frame**
Z. Zhang and C. Yu
