MANUAL
OF
MICROSCOPICAL ANALYSIS
OF
FEEDSTUFFS

11 ABR 1984

SECOND EDITION
1978

THE AMERICAN ASSOCIATION
OF FEED MICROSCOPISTS

**MANUAL OF MICROSCOPICAL ANALYSIS
OF FEEDSTUFFS
SECOND EDITION**

TABLE OF CONTENTS

	Page
PREFACE TO FIRST EDITION1
PREFACE TO SECOND EDITION1
INTRODUCTION3
FUNDAMENTALS OF FEED MICROSCOPY	
Principles of Ingredient Identification5
Reference Ingredient Collection5
Instruments and Equipment6
Preparing the Sample for Inspection7
Inspection with the Stereoscopic Microscope8
Inspection with the Compound Microscope9
Quantitative Estimation of Ingredients10
Special Training in Feed Microscopy11
FEED INGREDIENT DESCRIPTIONS —	
PLANT PRODUCTS	
Alfalfa Products15
Barley Products16
Brewers Products18
Citrus Products19
Corn (Maize) Products21
Cottonseed Products24
Distillers Products26
Flax (Linseed) Products28
Grain Sorghum Products29
Molasses Products31
Oat Products33
Peanut Products35
Rice Products37
Rye Products39
Screenings41
Soybean Products43
Wheat Products46
Yeast Products50

Miscellaneous Products	
Dried Beet Pulp	53
Buckwheat Feed	53
Coconut Meal or Copra Meal	53
Kelp Meal	53
Rapeseed Meal	53
Safflower Meal	54
Sunflower Meal	55
Tomato Pomace	55
Vitamin A Beadlets	56

**FEED INGREDIENT DESCRIPTIONS —
ANIMAL, POULTRY, DAIRY, MARINE PRODUCTS**

Animal Products	59
Poultry Products	67
Dairy (Milk) Products	69
Marine (Fish and Crustacean) Products	70

**COLOR PLATES —
LOW MAGNIFICATION (STEREOSCOPIC)
PHOTOMICROGRAPHS OF INGREDIENTS 75-82**

**HIGH MAGNIFICATION DRAWINGS —
HISTOLOGICAL FEATURES OF INGREDIENTS ... 83-96**

SPECIAL ANALYTICAL METHODS

Warning—Toxicity of Solvents and Reagents	97
Feed Additives (Drugs and Antibiotics) —	
Qualitative and Quantitative Tests	99
Minerals, Sugar, Urea — Identification	101
Ammonium	105
Calcium	105
Carbonates	105
Chlorides	105
Cobalt	102
Copper	102
Iodates	102
Iodides	102
Iron	102
Limestone	105
Magnesium	103
Manganese	104
Nitrates	105
Phosphates	105
Potassium	105

Sugar	106
Sulphates	105
Urea	107
Zinc	106
Fertilizer Ingredients — Identification	109-116
Phosphatic Ingredients — Differentiation	117-118
Fungi Occurring in Feedstuffs	119-124
Mycotoxins — Their Identification and Determination ..	125-130
Flotation Techniques and Quantitative Estimation of Ingredients	131-133
Quantitative Estimation of Ingredients	135-136
Quantitative Microscopic Determination of Ingredients	137-140
Weed Seed Identification	141-144
Whole Weed Seeds — Determination in Feeds	145
Poisonous Plants and Seeds	147-156
Animal Product Analysis — Interpretation of Microscopic and Chemical Methods	157-158
Photomicrography in the Laboratory	159-161
GLOSSARY OF BOTANICAL AND HISTOLOGICAL TERMS	163-166
REFERENCES	167-171
INFORMATION SOURCES — ACKNOWLEDGMENTS	173-174
