Preface	vii
1 Introduction	1
1.1 Introduction	1
References	3
2 Some Basic Concepts and Definitions	5
2.1 Plastics and Rubbers and Health, in Brief	5
2.2 A Brief Account of 'Chemicals' and 'Human Health'	6
2.2.1 Chemicals that Cause Health Hazards.....	7
2.2.2 Carcinogen(ic)s.....	14
2.2.3 Endocrine Disrupters (ECD).....	17
2.3 A Final Note.....	21
References	22
Appendix 2.A.1 Some Organic Indoor Pollutant Classifications by WHO.....	25
Appendix 2.A.2 Some Definitions of Lethal and Toxic Doses and Concentrations	25
Appendix 2.A.3 Inherent Toxicity Levels of Chemicals Hazardous to Health (OSHA)	26
Appendix 2.A.4 Some OSHA and ACGIH Definitions of Exposure Limits	26
3 General Issues of Toxicity for Plastics and Rubber	29
3.1 Plastics and Rubber, In Brief.....	29
3.1.1 Combinations of Plastics, Combinations of Rubbers.....	30

3.2	Additives	31
3.2.1	Migration of Additives	32
3.2.2	Antistatic (Electrostatic-discharge-dissipating) (ESD) Intentional Additives	36
3.2.3	Colorants	37
3.2.4	Curing Agents, Cure Accelerators, Crosslinkers (XL)	39
3.2.5	Coupling Agents and Compatibilisers.....	40
3.2.6	Foaming (Blowing) Agents	41
3.2.7	Stabilisers	42
3.2.8	Impact Modifiers	48
3.2.9	Nucleating Agents	49
3.2.10	Plasticisers (Flexibilisers)	49
3.2.11	Preservatives (Antimicrobials, Biocides)	55
3.2.12	Processing Aids (or Polymer Processing Additives, PPA)	56
3.2.13	Compatibilisers (Adhesion Promoters)	57
3.2.14	Other Intentional and Unintentional Additives.....	57
3.3	Health Hazards of Heavy Metals and Heavy Metal Ions	58
3.3.1	Some Elements, Common Heavy Metals and Heavy Metal Ions	59
3.4	Regulatory Bodies for Heavy Metals and Metal Ions.....	65
3.5	Toxic Chemicals from Degradation, Combustion and Sterilisation of Plastics and Rubbers	65
3.6	Effect of Migrant Compounds on Taste and Odour.....	66
	References	68
	Bibliography	72
	Web Sites	72
4	Toxicity of Rubber and Plastics Due to their Non-Additive Ingredients.....	73
4.1	General Outline.....	73
4.2	Polymers, Monomers, Oligomers	73
4.2.1	Thermopolymers/Thermoplastics	74

4.2.2	Thermosets and some Thermoset Composites	90
4.2.3	Rubbers/Elastomers	95
4.3	Some Additional Notes on the Toxic Chemicals Evolving from Degradation, Combustion and Sterilisation of Polymers	97
4.3.1	On Toxics from Degradation of Polymers	97
4.3.2	Toxic Compounds from Combustion, Thermo-Oxidative Degradation, Sterilisation and Others.....	99
	References	100
	Some Additional References	106
5	Plastics as Food and Packaging Materials, Rubbers in Contact with Food, and their Possible Health Effects	109
5.1	Introduction	109
5.2	Outline of Plastics Packaging and Possible Health Effects Involved	110
5.2.1	Why Plastics in Packaging?.....	111
5.2.2	Types of Plastics Used in Packaging.....	112
5.2.3	Types and Forms of Plastics Packaging.....	112
5.2.4	Smart Packaging.....	119
5.2.5	Active Packaging (Antimicrobial Packaging with Biocidal Polymers).....	120
5.3	Rubbers Used in Contact With Food and Possible Health Effects....	121
5.3.1	Some Rubber Types Used in Contact with Food.....	122
5.3.2	Issue of Monomers and Oligomers (Left) in Rubbers	123
5.3.3	Issue of Vulcanisation Agents (and Cure Products) Left in Rubbers.....	123
5.3.4	Plasticisers and Antidegradants in Rubbers	124
5.3.5	Migration from Food-Contact Rubbers and Some Tests.....	124
	References	125
	Some Additional Related Literature	127
6	Plastics Use in Healthcare and Their Possible Health Effects	129
6.1	Plastics in Biomedical and Healthcare Applications.....	129

Plastics, Rubber and Health

6.1.1	'Commodity' and 'Specialty' Medical Plastics.....	130
6.2	Fibre Reinforced Plastics as Medical Materials	136
6.3	Direct Use of Synthetic Polymers as Drugs and Therapeutic Agents.....	136
6.4	Dental Resin Composites	136
6.5	Use of Polymers in Dialysis.....	137
6.6	Ophthalmic, Prostheses and Other Applications of Medical Polymers	137
	References	138
7	Plastics and Rubbers Applications in Construction and Their Possible Health Effects	141
7.1	Introduction	141
7.2	Indoor Air Quality and Sick Building Syndrome.....	142
7.2.1	What is Sick Building Syndrome?	143
7.2.2	Possible Sources of IAQ/Sick Building Syndrome Problems, in General, and Some Solutions.....	144
7.2.3	Four Elements of Sick Building Syndrome	145
7.3	Volatile Organic Compounds (VOC)	146
7.3.1	Possible Sources of VOC	146
7.3.2	Permissible Limits for VOC Indoors	147
7.4	Risk Management and Some Notes on Toxic Compounds that can be Found in Indoor Spaces	148
7.4.1	Risk Management	148
7.5	Some Notes on Toxic Materials that can be Found Indoors.....	148
7.5.1	Endocrine Disrupters (ECD) and Some Suspected ECD Agents Indoors.....	150
7.5.2	Effect of Some Plastics, Rubbers and Wood-Related Materials on the Indoors Atmosphere in Houses	155
7.5.3	Some Construction Applications and Related Possible Health Hazards Indoors	161
	References	167

Some Additional Related Bibliography	171
Appendix.....	173
A-7.1 Radon Indoors.....	173
8 Use of Plastic and Rubber in Various Applications and Possible Health Effects	177
8.1 Plastic and Rubber Use in Sports and Leisure and Possible Health Effects	177
8.1.1 Plastics and Rubbers as 'Artificial Surfaces' in Sports and Leisure	177
8.1.2 Plastic and Rubber Use as 'Clothing' in Sports and Leisure	179
8.1.3 Plastics and Rubbers Use in 'Water and Motor Sports'.....	179
8.2 Automotive and Transportation Applications.....	179
8.2.1 Why Use Plastics and Rubbers in Automotive Applications?	180
8.2.2 Which Plastic/Rubber to Use for Automotive Applications?	181
8.3 Plastic Use in Agriculture and Possible Health Effects	183
8.4 Plastic and Rubber in Electric and Electronics Applications, Their Health Effects.....	183
8.5 Outline of Plastics Use as Other Consumer Products and Possible Health Effects.....	185
References	185
Some Additional Related Literature.....	186
9 Sustainability Through Plastics and Rubbers	187
9.1 Sustainability in General.....	187
9.2 The EU - Sustainable Development Strategy (SDS)	188
9.3 A Briefing on Environmental Laws and Sustainable Use of Plastics and Rubbers.....	189

Plastics, Rubber and Health

9.3.1	Plastics, Rubbers and the Environment.....	189
9.3.2	Plastics and Rubbers Waste	190
9.3.3	Polymers from Natural Renewable Sources (Sustainability Through Green Polymers)	192
9.3.4	Sustainability Through Additives	194
	References	195
	Some Additional Related References.....	198
10	List of Some Health Hazard Causing Solvents, Monomers and Chemicals Common for Plastics and Rubbers	199
	References	259
	Some Additional Related References.....	266
11	Short Lists of Some Extremely Hazardous Substances and IARC Groups 1, 2a, 2b, 3 and 4 Carcinogens Related to Plastics and Rubbers	267
11.1	A List of Some Extremely Hazardous Substances Related to Plastics and Rubbers	267
11.2	A Brief List of IARC Group 1 Carcinogens for Chemicals Related to Plastics and Rubbers.....	268
11.3	A Brief List of IARC Group 2A Carcinogens for Chemicals Related to Plastics and Rubbers.....	268
11.5	A Brief List of IARC Group 3 Carcinogens for Chemicals Related to Plastics and Rubbers.....	269
11.6	A Brief List of IARC Group 4 Carcinogens for Chemicals Related to Plastics and Rubbers.....	270
	Appendix.....	271
	Website.....	271
	Company/Organisation	271
	Glossary	275
	Abbreviations	291
	Index	305

Index

A

- Acetaldehyde 199
- Acetamide 199
- Acetic anhydride 200
- Acetonitrile 200
- Acrolein 201
- Acrylates (Acrylics) 201
- Acrylonitrile-butadiene-styrene (ABS) 41
- Action level 27
- Additives
 - antistatic (Electrostatic Discharge dissipating, (ESD)) 36
 - external ESD 36
 - functional 34
 - intentional 31, 57
 - interaction 32
 - internal ESD 36
 - migration 32
 - non additives 73
 - remnants 32
 - unintentional 32, 57
- Adhesion promoters (Compatibilisers) 40, 57
- Adhesives 163
- Adsorption
 - dermal 11
 - ingestion 11
 - percutaneous/perocular 11
- Alkylphenol ethoxylates (APE) 17
- Allyl glycidyl ether 203
- Allylchloride 203
- Aluminium 60, 204
- Aluminium hydroxide (ATH) 35
- 4-Aminodiphenyl 204
- Ammonium chloride 205
- n*-Amyl acetate 205
- Antimicrobials (Biocides, Preservatives) 35, 55
- Antimony 60, 205
- Antistatics 34
- Arctic Age 2
- Arsenic and compounds 60, 207
- Artificial surfaces 177
- Asbestos 161
- Automotive applications 180
- Azodicarbanamide (ADC) 41

B

- Bakelite 29
- Barium 61, 209
- Benzedene 210
- Benzene 149, 209
- 2,3-Benzofuran 210
- Benzoyl peroxide 211
- Benzyl butyl phthalate 210
- Benzyl chloride 211
- Berillium 212
- Biocides (Antimicrobials, Preservatives) 35, 55
- Biocompatibility 129
- Biodegradables 191
- Bismuth 61, 212

Bis-*n*-butyl phthalate (DBP) 53
Blends 31
Boron 62, 213
Bromine 214
Bromine 62
1,3-Butadiene 214
Butylamine 216
n-Butyl acetate 215
n-Butyl acrylate 215
n-Butyl alcohol 215
p,t-Butyl toluene 217
t-Butyl chromate 216

C

Cadmium 62, 217
Caesium 63
Camphor 218
Carbon and compounds 63, 219
Carcinogenics 6, 7, 14
 DNA-reactive 16
 epigenetic (EDC) 16
 group 1 16
 group 2A 16
 group 2B 16
Carcinoma *in situ* (CIS) 15
Catechol 219
Ceiling (C) 27
Chlorine 64
Chloroform 149
Chloroprene 220
o-Chlorostyrene 221
Chromium 64, 221
Cobalt 221
Code of Federal Regulations, USA 27
Colorants 34, 37
 dyes 37
 inorganic 38
 organic 38
 pigments 37
 special effect 39
 sustainable 195

thermochromic 39
Commodity polymers 30
Compatibilisers (Adhesion promoters)
40, 57
Composites 31
Coupling agents 34, 40
Cresol 222
Cure agents/accelerators 34, 39
Cyanamide 222
Cyclohexane 222
Cyclohexanol 222
Cyclohexanone 222

D

Detoxification 14
Di(2-hexyl)phthalate 228
Di-2-ethyl hexyl phthalate (DEHP) 52
Diacetone alcohol 224
2,4-Diaminotoluene 224
Dibenzofurans (PCDF) 20
Diborane 224
Di-Butyl phthalate 225
Dichloroacetylene 225
Dichlorodifluoromethane 226
1,3-Dichloro-5,5-dimethylhydantoin 226
Diepoxybutane 226
Diethylamine 227
Diethylenetriamine 227
Differential mobility spectrometry (DMS)
5
Diglycidyl ether 228
Di-hexyl phthalate (DHP) 76
Diidobutylphthalate 228
Di-isodecyl phthalate (DIDP) 52
Dimethoxyethyl phthalate 229
n,n-Dimethylaniline 229
Dimethyl hydrogen phosphite 229
Dimethyl methylphosphonate 230
Dimethyl phthalate 230
Dimethylformamide (DMFA) 18
Dimethylhexyl adipate 227

- Dimethylhexyladipate 227
 Dimethylsulfoxide (DMSO) 11
 Dinitro-*o*-cresol 230
 Di-nitrosopentamethylene tetramine (DNPT) 41
 Di-octyl phthalate (DOP) 52
 Dioxane 231
 Dioxins 20, 21, 219
 chlorinated dibenzo-*p*-dioxins 219
 Diphenylamine 231
 Dipropyl ketone 232
 Dipropylene glycol methyl ether 232
 Disulfiram 232
 2,6-Di-*t*-butyl-*p*-cresol 225
 Divinyl benzene 233
 Dose 8
 lethal 9
 median lethal dose (MLD) 9
- E**
- Effect
 additive 13
 antagonistic 13
 independent systemic 13
 local (topical) 12
 potentiating 13
 synergistic 13
 systemic 12
- Electronic nose (e-nose) 5
 Endodisruptors (ECD) 7, 17, 150
 Environmental protection agency 19
 Epichlorohydrin 233
 Ethylacrylate 233
 Ethylamine 234
 Ethylene thiourea 234
 Ethylene vinyl alcohol (EVOH) 35
 External plasticisers 51
- F**
- Factors
 external (environmental) 14
 internal 14
- Flexibilisers, plasticisers 35, 49
 Flame retardants
 non-halogenated polymeric 47
 polymeric brominated (PBFR) 47
 sustainable 195
 Flooring 165
 Foaming/Blowing agents 34, 41
 Formaldehyde 149, 234
- G**
- Gas chromatography (GC) 5
 Gas chromatography/mass spectrometry (GC/MS) 5
 Glazing 165
- H**
- Hazardous compounds 6
 Hazardous exposure to chemicals 7, 27
 Heavy metals/heavy metal ions 58
 Hexamethyl phosphoramidate 235
 Hexamethylene diisocyanate 235
 Hydrochlorofluorocarbons (HCFC) 42
 2-Hydroxypropyl acrylate 235
- I**
- Impact modifiers 34, 48
 Indoor air quality (IAQ) 142
 Instrumental analytical methods 5
 Insulation 166
 International Agency for Research on Cancer (IARC) 14
 Isobutane 236
 Isocyanates 237
 Isophorone diisocyanate 237
 Isopropyl glycidyl ether 238
n-Isopropylaniline 238

L

- Laminates 31
- Lead and compounds 65, 218
- Liquid crystal polymers (LCP) 134

M

- Magnesium hydroxide (MDH) 35, 46, 152
- Maleic anhydride 239
- Manganese and compounds 240
- 4,4-Mercaptobenzothiazole 253
- Mercury and compounds 240
- Methacrylic acid 241
- Methacrylonitrile 242
- 4-Methoxyphenol 241
- Methyl acrylate 242
- Methyl butyl ketone 242
- Methyl chloride 243
- Methyl isoamyl ketone 244
- Methyl isobutyl ketone 244
- Methyl isocyanate 245
- Methylene bis-4-hexylisocyanate 243
- 4,4-Methylene dianiline 244
- Methylene diphenyl diisocyanate 243
- Migration
 - modelling 33
 - of additives 32
- MRC Institute for Environment and Health (UK) 19

N

- 2-Naphthylamine 245
- National Institute of Environmental Health Sciences (NIH/NIEHS) 14
- National Institute of Health (NIH) 14
- National Toxicology Program (NTP) 14
- Nickel carbonyl 246
- Nitrosamines 246
- n*-Nitrosodiphenylamine 247
- n*-Nitrosomorpholine 247

- Non-additives 73
- Nucleating agents/optical property modifiers 34

O

- Office of Research and Development (ORD) 19
- Optical property modifiers/nucleating agents 34
- Organisation of Safety and Health Administration (OSHA) 6, 14
- Organochlorine Pesticides 20
- 4-4' Oxybis benzene sulfonyl hydrazide (OBSH) 41
- Oxygen scavengers 35, 47

P

- Packaging
 - active 120
 - smart 119
- Paints 162
- Paracelsus 8
- Pentachlorophenol 20
- Perchloromethyl mercaptan 247
- Permissible exposure limit (PEL) 27
- Persistent organic pollutants (POP) 21
- Phenol 248
- n*-Phenyl-naphthylamine 248
- Phthalic anhydride 249
 - Particulate Organic Materials (POM) 21
- Physical hazardous chemicals 6
- Piping 165
- Plasticisers/Flexibilisers 35, 49
 - adipate-based 50
 - benzoates 50
 - epoxidised vegetable oils 50
 - external 51
 - glycols/polyethers 51
 - green 50
 - maleates 50
 - phosphate esters 51

- phthalate-based 50, 52
 - polymeric 51
 - primary 51
 - sebacates 50
 - secondary 51
 - sulfonamides 50
 - sustainable 194
 - trimellitates 50
 - Pollutants
 - Semi Volatile Organic Compounds (SVOC) 21
 - Very Volatile Organic Compounds (VVOC) 21
 - Polyacrylamide (PAA) 82, 83, 201
 - Polyacrylic acid 202
 - Polyacrylonitrile (PAN) 82, 202
 - Polyamide/Nylon (PA) 30, 88, 134, 218
 - Polybrominated biphenyls 249
 - Polybutylene terephthalate (PBT-S) 86
 - Polybutyleneterephthalate (PET) 30, 115
 - Polycarbonate (PC)- 30, 131, 155, 213
 - Polycarbonate (PC) 83
 - Polychlorinated Compounds
 - biphenyls (PCB) 19
 - chlorinated dioxins (PCDD) 20
 - polychlorinated dioxins (PCD) 19
 - Polyetheretherketone (PEEK) 30, 135
 - Polyetherimide (PEI) 30, 135
 - Polyethylene (PE) 29, 75, 155, 131
 - crosslinked (XLPE) 75
 - expanded (EPE) 75
 - low/high density (LDPE/HDPE) 115
 - ultrahigh molecular weight polyethylene (UHMWPE) 35
 - Polyethylene terephthalate (PET-S) 86
 - Polyethylsulfone (PES) 30, 134
 - Polymethylmethacrylate (PMMA) 82, 155, 245
 - Polyoxymethylene (POM, acetals) 30, 135
 - Polyphenylenesulfone (PPS) 134
 - Polyphenylether (PPE) 30
 - Polypropylene (PP) 75, 131
 - Polysilicones 134, 135
 - Polystyrene (PS) 76, 115, 131, 251
 - expanded (EPS) 77
 - Polytetrafluoroethylene (PTFE, fluoropolymers) 35, 85, 135, 249
 - Polyurethane (PU) 88, 131
 - foam 5
 - Polyvinylchloride (PVC) 20, 81, 115, 131, 153
 - emulsion type 82
 - suspension type 82
 - Polyvinylidene chloride (PVDC) 35
 - Preservatives (antimicrobials, biocides) 35, 55
 - Processing aids (polymer processing additives) 35, 56
 - Propylene glycol monomethyl ether 250
 - Propylene oxide 250
- R**
- Radon 149, 173, 250
 - Registration, Evaluation and Authorisation of Chemicals (REACH) 21
 - Rubber 158
 - food contact 121
- S**
- Sealants 162
 - Selenium and compounds 250
 - Short Term Exposure Limit (STEL) 27

 - Silica 251
 - Smart packaging 119
 - Stabilisers 42
 - antioxidants 35, 43
 - flame retardants 35, 45
 - heat 35, 43
 - light (UV) 35, 44
 - oxygen scavengers 35, 47
 - Styrene oxide 252

Styrene-acrylonitrile copolymer (SAN) 78, 83
Styrene-butadiene-styrene copolymer (SBS) 77
Styrene-isoprene-styrene copolymer (SIS) 78
Sustainable development strategy (SDS) 188

T

Tetrahydrofuran (THF) 252
Tetramethyl succinonitrile 252
Thermoplastic elastomers (TPE) 135
Thermoplastics 29
Thermosets 29, 90
 amino and phenolics 90, 157
 epoxy resins 93, 157
 unsaturated polyesters (UP, PET-U) 92, 157
4,4-Thiobis (6-*t*-butyl-*m*-cresol) 253
Thioglycolic acid 253
Thiram 254
Threshold Limit Value (TLV) 28
 Threshold Limit Value - Ceiling (TLV-C) 28
 Threshold Limit Value - Short Term Exposure Limit (TLV-STEL) 28
 Threshold Limit Value - Time Weighed Average (TLV-TWA) 28
Time Weighed Average (TWA) 27
Tin and compounds 254
Titanium dioxide 254
Toluene 2,4-disiocyanate 255
Toxic compounds 7
Toxicants 10
Toxicity
 acute 13
 chronic/subacute 13

Toxicology 7
Tributyl phosphate 255
Triethylene tetramine 255
Trimellitic anhydride 255
Trimethyl benzene 255
Trimethyl phosphite 257
Triorthocresyl phosphate 257
Triphenyl phosphite 257

U

UV degradables 191

V

Vinyl acetate 258
Vinyl bromide 259
Vinyl chloride monomer (VCM) 78, 258
Vinyl cyclihexene dioxide 260
4-Vinylcyclohexene 259
Vinylidene chloride 260
Volatile organic chemicals/compounds (VOC) 5, 146

W

Wall coverings/papers 164
Window frames/doors 165
Wires 164
Wood 159
World Health Organisation (WHO) 14,

Z

Zinc dithiocarbamate 260
