

ENSURING GLOBAL FOOD SAFETY

EXPLORING GLOBAL HARMONIZATION

EDITED BY
CHRISTINE BOISROBERT • ALEKSANDRA STJEPANOVIC
SANGSUK OH • HUUB LELIEVELD

Contents

Foreword vii

Preface ix

Acronyms and Abbreviations xi

Contributors xix

- 1. Ensuring Global Food Safety—A Public Health Priority and a Global Responsibility** 1
Julie Larson Bricher
- 2. Development of Food Legislation Around the World** 5
 - 2.1 Introduction *Bernd M.J. van der Meulen*
 - 2.2 International Food Law *Bernd M.J. van der Meulen*
 - 2.3 India *Vijay D. Sattigeri and Kalapanda M. Appaiah*
 - 2.4 South Africa *Lucia E. Anelich*
 - 2.5 Eastern Africa *Margherita Poto*
 - 2.6 Australia and New Zealand *Keith C. Richardson and William R. Porter*
 - 2.7 The United States and Canada *Neal D. Fortin*
 - 2.8 Latin America *Rebeca López-García*
 - 2.9 European Union *Bernd M.J. van der Meulen*
 - 2.10 Near East *P. Vincent Hegarty*
 - 2.11 Northeast Asia *Mun-Gi Sohn*
 - 2.12 China *Juanjuan Sun*
 - 2.13 The Russian Federation *Yuriy Vasilyev*
 - 2.14 Concluding Observations *Bernd M.J. van der Meulen*
- 3. The Global Harmonization Initiative** 71
Christine E. Boisrobert, Larry Keener and Huub L.M. Lelieveld
- 4. A Simplified Guide to Understanding and Using Food Safety Objectives and Performance Objectives** 91
The International Commission on Microbiological Specifications for Foods (www.icmsf.org)
- 5. Global Harmonization of Analytical Methods** 99
Pamela L. Coleman and Anthony J. Fontana
- 6. Water Determination in Food** 109
Heinz-Dieter Isengard
- 7. Testing for Food Safety Using Competent Human Liver Cells** 125
Firouz Darroudi, Veronika Ehrlich, Axelle Wuillot, Thibaut Dubois, Siegfried Knasmüller and Volker Mersch-Sundermann
- 8. Capacity Building: Harmonization and Achieving Food Safety** 139
Larry Keener
- 9. Capacity Building: Building Analytical Capacity for Microbial Food Safety** 151
Mandyam C. Varadaraj
- 10. Global Harmonization of the Control of Microbiological Risks** 177
Cynthia M. Stewart and Frank F. Busta

11. **Towards Intended Normal Use (Part I): A European Appraisal of the Chloramphenicol Case and some Thoughts on the Potential of Global Harmonization of Antibiotics Regulation** 193
Jaap C. Hanekamp and Jan H.J.M. Kwakman
12. **Mycotoxin Management: An International Challenge** 209
Rebeca López-García
13. **Monosodium Glutamate in Foods and its Biological Effects** 217
Kalapanda M. Appaiah
14. **Food Packaging Legislation: Sanitary Aspects** 227
Gisela Kopper and Alejandro Ariosti
15. **Nanotechnology and Food Safety** 263
Syed S.H. Rizvi, Carmen I. Moraru, Hans Bouwmeester and Frans W.H. Kampers
16. **Novel Food Processing Technologies and Regulatory Hurdles** 281
Gustavo V. Barbosa-Canovas and Daniela Bermúdez-Aguirre
17. **Nutrition and Bioavailability: Sense and Nonsense of Nutrition Labeling** 289
Adelia C. Bovell-Benjamin and Elaine Bromfield
18. **New RDAs and Intended Normal Use (Part II)—Efficient Tools in the Universal Management of Risks and Benefits of Micronutrients** 311
Jaap C. Hanekamp and Bert Schwitters
19. **Nutraceuticals: Possible Future Ingredients and Food Safety Aspects** 333
V. Prakash and Martinus AJS van Boekel
20. **Harmonization of International Standards** 339
John G. Surak
21. **The First Legislation for Foods with Health Claims in Korea** 353
Ji Yeon Kim, Oran Kwon and Sangsuk Oh
22. **Bioactivity, Benefits and Safety of Traditional and Ethnic Foods** 363
Adelia C. Bovell-Benjamin
23. **Processing Issues: Acrylamide, Furan and *Trans* Fatty Acids** 383
Lauren S. Jackson and Fadwa Al-Taher
24. **Responding to Incidents of Low Level Chemical Contamination in Food** 411
Elizabeth A. Szabo, Edward Jansson, David Miles, Tracy Hambridge, Glenn Stanley, Janis Baines and Paul Brent
- Additional Reading**
- Integrating Risk Assessment and Cost Benefit Analysis: An Economics Perspective on International Trade and Food Safety** 439
Cristina McLaughlin, Peter Vardon and Clark Nardinelli
- Food Additives and Other Substances Added to Human Foods** 441
Larry Keener
- Global Harmonization of Food Regulations: Benefits and Risks of Organic Food** 445
Alain Maquet
- Index 447
