<i>Woodhead Publishing in Textiles</i>	<i>xiii</i>	
<i>Preface</i>	<i>xix</i>	
<b>1</b>	<b>Handle and making-up performance of fabrics and garments</b>	<b>1</b>
	L. HUNTER and E. L. HUNTER	
1.1	Introduction	1
1.2	Fabric Objective Measurement (FOM) of fabric handle and making-up performance	4
1.3	Other methods	27
1.4	Effects of fibre properties	28
1.5	Effects of yarn properties	30
1.6	Effects of fabric properties	31
1.7	Effects of dyeing and finishing (chemical and mechanical) treatments	33
1.8	General points	38
1.9	Sources of further information and advice	42
1.10	References	42
<b>2</b>	<b>Wrinkling of fabrics and garments</b>	<b>52</b>
	L. HUNTER	
2.1	Introduction	52
2.2	The measurement of wrinkle and crease recovery	54
2.3	Surface smoothness after repeated laundering	55
2.4	Factors affecting fabric wrinkling and recovery	55
2.5	Factors affecting wrinkling during wear	57
2.6	Effects of fibre properties	58
2.7	Effects of yarn and fabric parameters	62
2.8	Effects of fibre, yarn and fabric processing parameters	65
2.9	Sources of further information and advice	67
2.10	Concluding remarks	68
2.11	References	68

<b>3</b>	<b>Pilling of fabrics and garments</b>	<b>71</b>
	L. HUNTER	
3.1	Introduction	71
3.2	Effects of fibre composition and properties	75
3.3	Effects of yarn structure and properties	79
3.4	Effects of fabric structure and properties	81
3.5	Effects of fibre, yarn and fabric processing parameters	82
3.6	Sources of further information and advice	83
3.7	Concluding remarks	83
3.8	References	85
<b>4</b>	<b>Bagging of fabrics and garments</b>	<b>87</b>
	L. HUNTER	
4.1	Introduction	87
4.2	The measurement of bagging	90
4.3	Effects of fibre properties	95
4.4	Effects of yarn properties	96
4.5	Effects of fabric properties	96
4.6	Effects of garment construction	97
4.7	Effect of finishing	97
4.8	Fabric bagging prediction and modelling	97
4.9	Sources of further information and advice	99
4.10	Concluding remarks	99
4.11	References	100
<b>5</b>	<b>Fabric and garment drape</b>	<b>102</b>
	L. HUNTER, J. FAN and D. CHAU	
5.1	Introduction	102
5.2	Drape measurement	103
5.3	Engineering fabric drape	107
5.4	Empirical prediction of drape	111
5.5	Modelling fabric and garment drape	117
5.6	Drape models in CAD and Internet systems	121
5.7	Sources of further information and advice	124
5.8	Concluding remarks	124
5.9	References	125
<b>6</b>	<b>Appearance issues in garment processing</b>	<b>131</b>
	J. FAN, L. LAU and L. HUNTER	
6.1	Introduction	131
6.2	Seam appearance	131

6.3	Appearance issues in fusing	141
6.4	Appearance issues in garment dyeing	147
6.5	Appearance issues in pressing	152
6.6	Storage and packaging	155
6.7	Concluding remarks	156
6.8	References	157
<b>7</b>	<b>Durability of fabrics and garments</b>	<b>161</b>
	L. HUNTER	
7.1	Introduction	161
7.2	Abrasion resistance	165
7.3	Fabric and garment strength	174
7.4	Effects of dyeing and finishing on fabric strength	193
7.5	Modelling and predicting fabric strength	194
7.6	Sources of further information and advice	195
7.7	Concluding remarks	195
7.8	References	195
<b>8</b>	<b>Physiological comfort of fabrics and garments</b>	<b>201</b>
	J. FAN	
8.1	Introduction	201
8.2	Different aspects of clothing physiological comfort	202
8.3	Tactile comfort	202
8.4	Assessment of tactile comfort	208
8.5	Thermophysiological comfort	211
8.6	Liquid water transport properties of fabrics and clothing	227
8.7	Garment fit and ease of body movement	234
8.8	Pressure comfort	238
8.9	Concluding remarks	242
8.10	References	242
<b>9</b>	<b>Psychological comfort of fabrics and garments</b>	<b>251</b>
	J. FAN	
9.1	Introduction	251
9.2	Assessment of psychological comfort	252
9.3	Factors affecting psychological comfort	254
9.4	Effects of colour and surface texture	254
9.5	Effect of garment design	257
9.6	Effects of garment sizing and fit	258
9.7	Fashion and prejudice	258
9.8	Concluding remarks	258
9.9	References	259

<b>10</b>	<b>Flammability of fabrics and garments</b>	<b>261</b>
	J. FAN and L. LAU	
10.1	Introduction	261
10.2	Burning mechanisms	261
10.3	Index for burning behaviour of textiles	262
10.4	Effects of fibre composition, structure and properties	264
10.5	Effects of yarn structure and properties	267
10.6	Effects of fabric structure and properties	270
10.7	Effects of fibre, yarn and fabric processing parameters	271
10.8	Effect of garment design	274
10.9	Test methods and standards for textiles and apparel	275
10.10	Concluding remarks	280
10.11	References	280
<b>11</b>	<b>Waterproofing and breathability of fabrics and garments</b>	<b>283</b>
	L. HUNTER and J. FAN	
11.1	Introduction	283
11.2	Definitions	285
11.3	Measurement of waterproofing and breathability	286
11.4	Engineering fabric and garment breathability	289
11.5	Fabric finishes	298
11.6	Construction of showerproof garments	300
11.7	Comparative fabric and garment properties	304
11.8	Sources of further information and advice	304
11.9	Concluding remarks	305
11.10	References	305
<b>12</b>	<b>Ultraviolet protection of fabrics and garments</b>	<b>309</b>
	L. HUNTER	
12.1	Introduction	309
12.2	Measurement of UV protection	318
12.3	Effects of fibre properties	324
12.4	Effects of yarn properties	327
12.5	Effects of fabric structure and properties	327
12.6	Effects of dyeing, finishing and other chemical treatments	330
12.7	Sources of further information and advice	333
12.8	Concluding remarks	333
12.9	References	334

<b>13</b>	<b>Laundry performance of fabrics and garments</b>	<b>339</b>
	L. LAU and J. FAN	
13.1	Introduction	339
13.2	Laundering	340
13.3	Care labels	340
13.4	Effects of fibre composition, structure and properties	341
13.5	Effects of sewing thread linear density	348
13.6	Effects of fabric structure and properties	348
13.7	Effects of colouration and finishing	351
13.8	Effect of garment design	353
13.9	Test methods and standards related to laundering and care labelling	356
13.10	Concluding remarks	358
13.11	References	358
<b>14</b>	<b>Applications of artificial intelligence in fabric and garment engineering</b>	<b>361</b>
	J. FAN	
14.1	Introduction	361
14.2	Expert systems	362
14.3	Artificial neural networks (ANNs)	365
14.4	Concluding remarks	378
14.5	References	379
	<i>Index</i>	383
